

## Announcements on Mobile Web App

**1. Add the event to Home Screen.** After you have access to the event page, you can click the Share button on the browser, then select Add to Home Screen, and the event page will be added to your mobile home screen for easier access.

### Google Chrome Browser:

### Safari Browser:

**2. Subscribe to notifications.** Open the event using the event web app you just added to the Home Screen. And you will now be able to receive the announcements from the event organiser.

## Announcements on Desktop

**1. Subscribe to notifications.** When you first access the event page on the desktop, there will be a pop-up message asking for a notification subscription. Click **Subscribe**.

### Google Chrome Browser:

The screenshot shows a Google Chrome browser window with the URL `spot.eventx.io/events/38b11213-09ae-402f-bb61-7f26edf0fabd`. A notification pop-up is displayed in the center, asking to subscribe to notifications. The pop-up contains the text: "Subscribe to our notifications for the latest news and updates. You can disable anytime." Below the text are two buttons: "Later" and "Subscribe". The "Subscribe" button is highlighted with a red rectangular box. In the background, the EventX website is visible, featuring a banner for "EVENT TECHNOLOGY CONFERENCE" and a "Join Now" button. Below the banner, the event title "Future of Event Technology" and the date "17/07/2026, 9:00 AM - 11:00 AM (GMT +08:00)" are displayed. At the bottom of the page, there is a "Hosts & Speakers" section with a red question mark icon.

You can change the Notifications settings under the URL.

The screenshot shows the same Google Chrome browser window as above, but with the Chrome notification settings menu open. The menu is for the site `spot.eventx.io` and shows the following settings: "Connection is secure" (checked), "Camera" (checked), "Microphone" (checked), "Notifications" (checked), "Cookies and site data" (checked), and "Site settings" (checked). The "Notifications" setting is highlighted with a red rectangular box. A red arrow points from the "Allowed" status in the address bar to the "Notifications" setting in the menu. Below the menu, the EventX website is visible, showing a countdown timer: "Event will start in 1066 day 19 hr 10 min 37 sec". The event title "Future of Event Technology" and the date "17/07/2026, 9:00 AM - 11:00 AM (GMT +08:00)" are also visible.

**Note:** Only global devices are supported. Chinese devices are not supported at the moment.

### Support by Browser Version

Browser	Minimum Version
Google Chrome	Chrome 50+
Mozilla Firefox	Firefox v47+
Apple Safari	Safari on macOS 10+ Safari on iOS 16.4+ and iPadOS 16.4

### Limitations

1. If the user clicks subscribe/ unsubscribe notification, it will apply to all events created under this organisation.
2. The push notification feature is not supported for events using custom domains.
3. The push notification feature is not available for Android devices.
